

Household Hazardous Wastes

Common household products often contain chemical ingredients that are potentially harmful to you and are a threat to the rivers. These products are called Household Hazardous Wastes. You can help the environment by reducing your use of these products and disposing of these products during a Household Hazardous Waste Collection Day. Find the Household Hazardous Wastes in the word search below:

Antifreeze	Oven cleaner	Batteries	Pesticide
Brake Fluid	Primer	Gasoline	Rat poison
Motor Oil	Varnish	Nail polish	Weed killer
Oil Based Paint	Old Medicine	Wood Preservatives	

Let's make one thing
Perfectly Clear.
